BUILDERS SPACE!™

CREATE YOUR VERY OWN BUILDER SPACE

BIG KIT: This Kit creates a 10 X 5 foot building space your kids will love. Kit comes with 20 panels and over 280 block pieces – so children can build whatever they imagine – animals or an entire zoo buildings, vehicles or an entire city – and so much more. Kids can build off the wall and up from the floor, a truly unique experience. This Kit accommodates several children playing.

BIGGEST KIT: Customize + design your own creative building space. Teachers, parents, architects and designers have covered walls, floors and ceilings with our panels – in children's classrooms, playrooms, bedrooms, and even executive conference rooms. Add hundreds of our Small Bright Blocks and that's the fuel for maximum building creativity. Call us for pictures of our **Builders Space** custom playspaces that have been built around the world.

Panel size is approximately 20 x 20 x 1 inch. Blocks created off a 2 inch "footprint" – perfect building size!
